

# Congratulations to the 2009-2010 Accounting Doctoral Scholars

The ADS Program has awarded \$810,000 in scholarships to 27 premier first-year accounting doctoral students in auditing and tax.

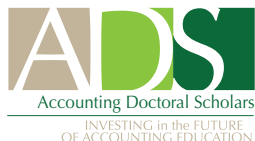

The program seeks to address the severe shortage of doctoral faculty in auditing and tax; it is funded primarily by commitments of more than \$16.5 million from 70 of the largest accounting firms and 42 state CPA societies. ADS Program Scholars receive \$30,000 per academic year for up to four years.

## What's next for the ADS Program:

The second class of scholars has been selected. Awardees are seeking placement at participating universities for fall 2010 enrollment.
